Saturday, October 27, 2007
At the ranch near San Marcos, Texas • 1 PM

Selling Approximately 200 Lots **INCLUDING 110 BULLS AND 90 FEMALES**

Making your mark in the Angus business is not an easy task. Leaving your mark on the Angus business is virtually impossible without remarkable genetics and a long-term, strategic plan to make 'em better every year. In our opinion, the 2007 offering of Dreamcatcher genetics is remarkable and parallels our desire to leave a mark on the Angus business.

DRMCTR 2908S Design 2B02 is a remarkable cow purchased in our 2005 sale by Subiaco Abbey Angus Farm in Arkansas for \$7000. In spring 2005, 2B02 produced 18 sons and daughters at Dreamcatcher by 112 and 111. This spring her progeny at Dreamcatcher posted AVERAGE \$Beef values of \$57.88. In fact 9 of 16 of our highest \$Beef heifers are from this cow. 2B02 currently ranks 16th among all current Angus dams for \$Beef at \$58.98. Watch for her 10 sons and 6 daughters selling!

Join us October 27 at Dreamcatcher Ranch. Leaving a positive mark on the Angus business means making a positive impact on the beef industry. Dreamcatcher "Change-Maker" genetics set you on the path to making our industry better.

The AVERAGE of our 2007 offering:

BW—TOP 50% • WW—TOP 10% • YW—TOP 5% • MILK—TOP 15% • YH—BOTTOM 45%
\$W—TOP 10% • \$F—TOP 10% • \$G—TOP 10% • \$B—TOP 2%

Whether you need to beef up your herd sire battery or improve the genetic potential of your donor herd, the "Change-Making" potential from this awesome group of full sibs deserves your attention.
